## ABOUT ME

Front end developer, currently pursuing a masters degree in software engineering. My education journey is bolstered by underpinning theoretical knowledge and interweaving it with practical experience in tech-driven landscapes. Diligent, prompt, ethical, organized, and energetic. Efficient and resourceful, interpersonal communicator enhanced by tactical solid communication skills. Leadership skills and the ability to design, develop, and document projects for very complex and technically rich new releases, features, and functionality. Quick to meet deadlines and multi-tasked oriented. Good at teamwork, and detail-oriented.

## EDUCATION

### University - “UBT”

Bachelor in Computer Science & Engineering  
2021 – 2024

### University - “UBT”

Masters in Computer Science & Engineering  
2024 – 2026

## SKILLS

- Next JS, React JS, Typescript, Nuxt, Vue js
- NeonDB, Tanstack, PostgreSQL, Prisma
- Multitasking
- Database Management
- Documentation
- Team worker

## CERTIFICATIONS

- GIZ - Empowering Youth With AI
- Coursera - Search Engine Optimization (SEO) with Squarespace
- Walmart Global Tech - Advanced Software Engineering Job Simulation
- University of London - Understanding Research Methods
- DataProgNet IT Academy - Cisco CCNA 1 -3
- Shkolla Digjitale - Basic Programming logics and concepts
- Coders Hub - Full Stack Boot Camp
- DataProgNet IT Academy - MERN Full Stack
- University of Harvard - CS50W programming with Django and React
- Udemy - Vue 3 in Action: 7 Projects to Master the Framework

## SUMMARY OF EXPERIENCE

### Frontend Developer

Animus Evolution | November 2024 - Present

- Building and maintaining Vue applications using functional and optimized components with typescript compliance.
- Integrating Pinia for state management, improving data flow efficiency and shared persistence.
- Assisting in code reviews to uphold best practices and maintain code quality.
- Contributing to backend development with Nest.js, creating controllers and endpoints, and managing database interactions using Prisma ORM
- Applying UI-wise styling with different CSS frameworks such as Shadcdn, Tailwind, Vuetify, etc...
- Debugging and resolving frontend issues, ensuring smooth user experience and application stability.
- Using tools for code break prevention such as Husky and ESLint.

### Frontend Developer Intern

Tag Digitalis | January 2023 - April 2023

- Strong knowledge of SQL databases (PostgreSQL, MySQL), including the ability to optimize queries and design effective database schemas.
- Designed and developed page layouts, custom navigation, animation
- buttons, and icons with Bootstrap, Font-Awesome, and jQuery.
- Implemented React Router for efficient client-side navigation and routing.
- Implemented lesson plans which led to enhancing my skills in programming and working with teammates.
