Software Test Engineer / Quality Assurance Engineer

---

## Work Experience

### May 2022 – Present

#### Software Test Engineer

*Elula Tech Pvt Ltd, Bangalore, India*

- Conducted manual and automated testing on custom WordPress and WooCommerce plugins.
- Verified e-commerce functionalities such as product searches, cart operations, checkout processes, payment gateways, and shipping options.
- Executed tests on over 20 different e-commerce plugins, ensuring they met performance, security, and usability standards.
- Key Plugins Tested: Dynamic Pricing, Abandoned Cart Recovery, Role-Based Pricing, Name Your Price, Bulk Edit, Google Feed, Facebook Feed, Multi-Vendor, Shipping Calculator, WsChat with OpenAI ChatGPT integration, and YouTube Gallery Plugin.
- Used Selenium WebDriver and Java for automation of various plugin functionalities.
- Participated in the analysis of business requirements, wrote test cases, executed tests, and tracked defects using Jira.
- Contributed to product release management and deployment on WooCommerce and WordPress platforms, including Amazon S3.
- Provided training and support to new team members and assisted in preparing test reports and documentation.

### December 2021 – May 2022

#### Software Test Engineer (Intern)

*XELATE: Seven Chats, Bangalore, India*

- Tested social media platform functionalities on Android, iOS, and Web platforms under Scrum methodology.
- Responsible for writing and executing test cases for multiple features, including user report screens, group chat functionalities, and quote screens.
- Performed manual functional, regression, integration, and user acceptance testing (UAT).
- Automated various test cases using Selenium and Java.
- Collaborated with product teams to ensure test coverage and resolve software defects.
- Ensured that the fixes met acceptance criteria before production release.
