Summary

Hi, I'm a highly motivated Full Stack Developer with a passion for building robust and innovative solutions. With 2 years of hands-on experience, I've honed my skills and expertise across various technologies to create seamless web applications.

During my journey, I've had the opportunity to work on diverse projects, including an E-commerce platform that showcased my ability to design and develop user-friendly interfaces and robust backend systems. Additionally, I've successfully implemented 3rd party integrations, ensuring a seamless user experience and enhanced functionality.

I hold a B.Tech degree from Durgapur Institute of Advanced Technology and Management, where I gained a strong foundation in computer science and software development principles.

My skill set encompasses a wide array of technologies, including Node.js, Express, MySQL, MongoDB, Angular, React, architecture design, Elasticsearch, AWS, Redis, Docker, Kubernetes, and Git. This diverse skill set enables me to tackle complex challenges and deliver scalable solutions.

I thrive in collaborative environments, where I can leverage my technical acumen to contribute to team success. I am always eager to learn and stay up-to-date with the latest industry trends and best practices.

If you're looking for a dedicated and resourceful Full Stack Developer to join your team, I'd love to connect and explore how my expertise can add value to your Organisation. Let's collaborate and build something extraordinary together!

Experience

Software Development Engineer

CommerceUp

Jun 2022 - Present (1 year 3 months)

- ◉ Build enterprise-level websites, including sidcofoods.ae, unboxdeals.com, eudaclothing.com, and charactercosmetics.com, using a full stack skill set comprising Node.js, Angular, TypeScript, MongoDB, and AWS.
- ◉ Successfully maintained and managed over 40 existing enterprise-level websites, ensuring their optimal performance and smooth functioning.
- ◉ Developed 3rd-party hosted payment gateways and shipping services to enhance the e-commerce platforms' functionality and provide seamless customer experiences.
- ◉ Collaborated with cross-functional teams, including designers, product managers, and stakeholders, to understand requirements and deliver high-quality solutions within specified timelines.

- ⊗ Leveraged expertise in e-commerce domain to provide valuable insights and recommendations for improving website performance, user experience, and conversion rates.
- ⊗ Demonstrated ability to handle end-to-end development processes, from requirements gathering and system design to deployment and post-launch maintenance.

Software Engineer

Kiswok Industries Pvt Ltd

Feb 2022 - Jun 2022 (5 months)

- ⊗ I was responsible for developing and maintaining the internal site of the Kiswok Manufacturing Company portal. This portal serves as a platform for various essential tasks, including daily employee attendance, delegations, lab reports, grievances, appraisals, interviews, payslips, leave management, CAPA (Corrective and Preventive Actions), Kanta-Entry, page access control, and quotations etc.
- ⊗ The portal consists of over 50 components, and during my tenure, I constructed more than 30 components to address various company issues. Additionally, I regularly updated several existing components to ensure their relevance and accuracy.
- ⊗ To build the frontend of the portal, I utilized technologies such as HTML, CSS, JavaScript, and EJS. These tools allowed me to create visually appealing and interactive user interfaces with reusable components. For the backend, I employed Node.js and Express.js, which facilitated efficient server-side programming. The data for the portal was stored and managed using MySQL as the database system.
- ⊗ Overall, my role involved the development, maintenance, and enhancement of the Kiswok Manufacturing Company portal, utilizing a range of technologies to ensure its functionality and user-friendliness.

Software Engineer Trainee

Kiswok Industries Pvt Ltd

Nov 2021 - Feb 2022 (4 months)

Education

Durgapur Institute of Advanced Technology and Management 155

B.tech, Computer Software Engineering

Aug 2017 - Aug 2021

Burnpur Boys High School

12th, PCM

Jul 2013 - Jul 2015

Chhotodighari Vidhayapith High School

Matric, General

Jul 2012 - Jul 2013
