Learning Software Engineering with a one-year residential program and also learning new skills along with study

SKILLS

Python

javascript

Html-css

Bootstrap

Learning React-js

PROJECTS

javascript(Request)

<https://github.com/Mamata720/javascript-project/blob/master/Request.js>

By using the Requests library we get the data from Saral by calling API, we can see the content of a particular course.

login-page

<https://github.com/Mamata720/javascript-project/blob/master/login%20page%20/login%20sing%20page.js>

in login if user wants to signup so they can enter thier details and that details will be save in a file so if user will login so we will campare that details so user can logn.

Web Scraping(Python)

<https://github.com/Mamata720/Web-scrping>

In this project we are scraping the data from different websites.

Html & Css(project)

<https://github.com/Mamata720/html-css-project>

I have created some project using HTML & CSS

Web-devlopment

<https://github.com/Mamata720/Web-devlopment>

I made some project using HTML CSS ,Bootstrap and javascript
