Gurgaon, Haryana

Full Stack Engineer

With 3 years of experience in the corporate environment as a Full Stack Developer, I have honed my technical proficiency in building complex websites and web-based applications from the ground up. My expertise extends to developing highly interactive and performance-optimized web applications by adeptly utilizing the MEAN (MongoDB, Express.js, Angular, Node.js) and MERN (MongoDB, Express.js, React, Node.js) tech stacks. I am skilled in leveraging technologies such as JavaScript, HTML5, CSS3, JSON, and frameworks/libraries including Angular6+, Bootstrap, Angular Material. Additionally, I have extensive experience in integrating Restful APIs, ensuring seamless data exchange and functionality across the full stack of application development.

KEY SKILLS

Frontend Technologies:

- HTML/HTML5, CSS/CSS3
- JavaScript Frameworks & Libraries: Angular2+, JQuery, RxJS, Typescript, React
- UI Frameworks: Bootstrap, Tailwind CSS, Angular Material
- CSS Processors: Sass/Scss, Less

Backend Technologies:

- Node.js, Express.js
- MongoDB
- Redis, Elasticsearch
- Bull.js
