PROJECTS

➤ TINY URL CONVERTER

In this project we are making URL converter which converts long URL to short URL by using OOPs.

Basically, when the URL shortener gives you your shortened URL, it remembers the full address. When other users go to the shortened URL, they will be automatically redirected to the full address.

➤ ZOMATO DATA ANALYSIS

For analyzing the data in this project, I have used libraries like : NumPy, Pandas, Matplotlib and Seaborn

Work and Experience

Cerebry e- learning solutions, Singapore

Subject Matter Expert

- Developed/curated content of diverse curricula such as CBSE, ICSE, Cambridge IGCSE, Singapore O-Level, Philippines DepEd (MELC). Generated a set of questions of a particular type by writing the constraints & logic using latex & basic Python codes.
- Worked on copyright issues of the application/word problems and developed different context questions. Provided constructive feedback in improvising the content and making practice personalized & adaptive for students.
