## about

### MY SELF

- Experienced and passionate marketing manager with an year of experience evaluating and improving at every moment. I excel in leadership roles, consistently achieving project objectives by leveraging my profound grasp of systems engineering concepts.
- Notably, during my inaugural internship, I stood out as the sole candidate chosen for a coveted position.

### EXPERIENCE

#### AS A WHOLE SELLER

2019 – 2021

- Skilled in acquiring new clients, negotiating contracts, and building relationships with retailers
- Expanded the company's wholesale portfolio
- Proficient in analyzing market trends and conducting research to identify profitable products

### EXPERIENCE

#### As marketing manager

- I have around Six months of experience as a marketing manager , I started from lead generation and then I learn how to use different scraping tools and then my company started giving me clients and I was working for the clints under the supervision of my tram head.
- I managed 5,6 different campaigns for different clients at once.
- I have freelance in between for a client helped him in making banners and social media marketing.

## Achievement's

2021– my start up has sold 25lakh worth of clothing

2023– I got an internship in digital domination & out of 5 people only I got the offer letter.
