## SKILLS

SOFT SKILLS: Communication, Interpersonal, Listening, Presentation, Negotiation, Leadership, Management.

TECHNICAL SKILLS: SQL, Python, Power Bi, Power Point, Excel Pivot, Visualization, MS Word, Picsart.

FIELD OF INTEREST: Business Analytics, Data Visualization.

## PROJECT

### STUDENT RESULT BOT

GURU JAMBHESHWAR UNIVERSITY OF SCIENCE AND TECHNOLOGY - May 2023-Present

The Student Result Bot is a project that enables users to retrieve and view their academic result details by entering their roll number. The project includes a user-friendly interface where individuals can input their roll number. It then retrieves the corresponding result information from a database or online system, which stores subjects, marks or grades, overall percentage, and other relevant data. The bot processes the retrieved data, calculates overall percentages and grades, and presents the result details in a clear and concise manner. The project aims to streamline the process of accessing result information, saving time and effort for students and administrative staff. It offers convenience, accuracy, and accessibility, allowing students to access their results anytime and anywhere without relying on manual intervention or physical visits to the institution. Overall, the Student Result Bot simplifies the result management process and enhances the user experience by automating the retrieval and display of academic performance details.

## HOBBIES

Photography, Lyrics Writing, Listening Punjabi Song and Watching movies.

Dedicated to capturing the beauty of the natural world through photography. Proficient in using composition, lighting, and editing techniques to showcase the majesty of landscapes, sun set, and flora.
