

## PROFILE

Currently a student of Journalism, I am looking forward to working in the media industry. As a postgraduate media student, I have developed the skills of Photoshop and gained more insight into media trends. My Bachelor's degree in English has helped me hone my vocabulary and indulge in intellectually enriching experiences. Being in the Student Council at my College has given me an edge over my peers, encouraging me to improve my relational and communication skills while organising events at college and coordinating with numerous people for the same.

## SKILLS

- Creative Writing
- MS Word
- Editing
- Research
- Adobe Photoshop
- Communication
