Oracle C++ React.js Flask mySql
Sqlite Oracle sql Mongoddb Python
Full Stack Web Development node.js panda
Numpy Web scraping Redis Django
Critical thinking Good Listener Sales

PERSONAL PROJECTS

1. Worked on (co-founded) startup called 'Brandsico' (05/2022 - 11/2022)
 - We brought content creators and promoters on a single platform . Through which both brands and Content creators can grow and help each other
 - Brandsico helps clients to buy and sell share/equity of social media influencers
2. Flask based Clothing Ecommerce - store a web app using html, bootstrap, css , flask and Sqlite database
 - A site through u can buy clothing's which u see in movies and web series
 - This app idea is based upon fast fashion trends , and is built to address that specific market . so that consumers can have direct access to latest Trends
3. React base Social media webapp using html,bootstrap,css,React.js , MoongoDb ,node.js
 - This site lets you connect with your friend , family and colleague
4. Flask and React based daily life scheduling app
 - Web app build with react and Flask lets u plan your day in advance
- 5.Django based chatting and conferencing web app like Discoard
 - This web app is similar to that of discord , It lets you have your personal chat rooms
 - Build using django , python , html,css , javascript ,bootstrap

CERTIFICATES

- 1.Python with Data Structures and Algorithms at Coding Ninja (11/2022 - Present)
Advance course on python ,includes dsa and oops
- 2.Ineuron Data science bootcamp (11/2022 - Present)
includes machine learning , deep learning , AI, Dbms,neural networking
- 3.Full stack web development with Python at Fynd .acadamy (02/2023 - 05/2023)
includes Flask, Django ,python
