SHARPENER | INTERNSHIP   April 2023 – present

- Dedicated to learning diverse web development technologies andactively contributing to creation of 10+ projects.
- Developed a diverse range of web projects during the internship, including an email clone, expense tracker, e-commerce app, and portfolio website and many more.

SKILLS

PROGRAMMING LANGUAGES	Java, C, C++, DSA
LIBRARIES/FRAMEWORKS	React, JavaScript, Redux, Bootstrap, Tailwind, Node js, Next js
TOOLS / PLATFORMS	Front end development, Git & Github, Firebase, Postman

PROJECTS / OPEN-SOURCE

POTFOLIO WEBSITE | LINK   Next js , Javascript ,Tailwind ,TypeScript

- I brought my professional story to life with a sleek and responsive portfolio.
- My portfolio serves as a user-friendly gateway to explore my projects and experiences.
- I used Nextjs & Tailwind for responsive and design.

EMAIL-CLONE APP | LINK   ReactJs ,Redux ,Firebase ,Bootstrap

- Engineered a user-friendly Email Box Client application utilizing Redux, React, and Firebase Realtime Database, enabling users to send and receive messages within dedicated accounts.
- Designed as a multiple-user application to enhance accessibility and collaboration, fostering a streamlined and collaborative email experience.

EXPENSE TRACKER APP | LINK   React , Redux , Firebase , Bootstrap

- Developed an expense monitoring application using React, Node, Redux, and Firebase, providing users with a comprehensive tool for managing their finances.
- Implemented premium features, including the ability for users to download expenses in Excel format and customize the application's theme for a personalized experience
