New Era High School
Marks:9.5

## ACADEMIC PROJECTS

**Salary prediction using machine learning:**
Predicting justified salary for employee is always being a challenging job for an employer. In this paper and proposing a salary prediction model with suitable algorithm using key features required to predict the salary of employee using machine learning.

**Automatic Street Light Using LDR:**
LDR sensor is used for detecting the presence of surrounding light so that during the day time when sun is bright, the street light is switched off automatically. During the night time when there is no light, the LDR sends signal to micro controller to turn on the street light.

**Customer Billing System using Python:**
This simple billing system project in Python focuses mainly on dealing with customer's billing with their purchase quantity, and discount. At first, the system allows inserting the customer's name, then the user can simply enter the item's name and quantity he/she wants. After selecting all the product items, the system calculates the total payable bill with the expected discount percentage. At last, the system automatically creates an invoice receipt in a .txt format which includes the name of the customer, date, time of purchase, product item with quantity, unit price, and a total of each, discountable amount, and payable amount. All these sold product's quantity is also deducted from the system which is system maintains it under products.txt file.

## CERTIFICATIONS:

VERZEO   Certification in INTRODUCTION TO MACHINE LEARNING IN PYTHON

## INTERNSHIP:

2-weeks intership on **LED CHIP MANUFACTURING** at KWALITY PHOTONICS CORPORATE TS

INCENTIVES PVT

## ACHIEVEMENTS:

## ACADEMIC:

Offered scholarship by Telangana government forbeing in top 1%in

Intermediate Board Examination

Excelled in academics and felicitated for being TOPPER in SSC
