PROGRAMMING LANGUAGES & FRAMEWORKS – JAVA | Python | JavaScript | HTML | CSS | Spring Boot | OOPs | DSA

TOOLS & DATABASES – Postman | Docker | SQL | MySQL | DBMS | MongoDB

## EXPERIENCE

**QA ANALYST**                                                                                                 **03/2023 - Present**
**Penta Software Consultancy Services Pvt Ltd.**
• Currently working on OCR domain projects, primarily involved in functional testing, regression testing, and retesting.
• Perform various types of testing to ensure software quality.
• Obtain requirement documents and write, review, and refine test cases in Excel.
• Strive to achieve daily testing targets and maintain project timelines.
• Work within an Agile methodology to ensure efficient and iterative development and testing processes.

## EDUCATIONAL QUALIFICATION

**Bachelor of Science** (Mathematics)                                                           **06/2019 – 05/2021**
S.D.S.M. College Palghar | University of Mumbai
CGPA – 8.43
Coursework – Calculus | Linear Algebra | Introduction to Programming | JAVA | Python

## PERSONAL PROJECTS

**E-COMMERCE API** 🔗
Description - Developed a backend API for an e-commerce web application with a team of 3 members, featuring 6 modules: User, Customer, Address, Product, Cart, and Order.
Primarily focused on User, Address and Product functionalities.
Utilized Spring Boot framework, MySQL database, and Spring Data JPA for database connectivity.
Implemented REST APIs and followed the MVC architecture for better readability and maintainability.
**JAVA** | Spring Boot | MySQL | JPA | MVC

**Expense Tracker** 🔗 🔗
Description - Developed a front-end application for tracking personal finances as a learning project using JavaScript and React.
Allows users to add descriptions of expenses and income, input amounts, and store transaction history for calculation and review.
**JavaScript** | **React** | HTML | CSS

## CERTIFICATION – Spring Boot 3 & Spring Framework 6 with Java 🔗
