PERSONAL PROJECTS

Vehicle Management System Using PHP & MySql. (03/2023 - 04/2023)

- Vehicle Management System in PHP MySQL is the complete Management System for managing vehicle management. if you want to manage your small or large vehicle business. This VMS is suitable for you. The *VMS* is developed *using PHP* , HTML, JavaScript and MySQL. In this *project* , we use *PHP* and Mysql database. It has two module 1.User Module 2. Admin Module. User Module.

BANKING SYSTEM (JAVA) (12/2022 - 01/2023)

- A simple *java* Project that models how a *banking* app would work. Users can log in, sign up; check their balance, withdraw and deposit money; convert funds. In order to understand one must have a strong grasp over Java OOPs , Java Multithreading & Java Interrupted-Exception . If not go through them as the title in itself is a sheer implementation of multithreading.
