Experience

AUG 2022 **Software Engineer**   **American Express**
As a core member of an agile team, I collaborate with skilled engineers to build products and solutions across a wide range of technology domains, such as distributed real-time transactions, highly scalable and mission-critical applications and platforms, and big data analaysisusing Splunk and Confluence.

MAR-APR 2022 **Junior Analyst**   **Sugam Solution Pvt Ltd, USA**
Performed market research, gathered and interpreted data to create and analyze models. Directly reported the market research results to the CEO, to strategically analyze the business entry decisions.

JUN-JUL 2021 **Summer Intern**   **UpKey, USA**
A 6-week internship at a learning platform, where I researched and helped to develop various training courses covering communication and presentation to SEO as well as product management including agile and scrum methodologies.

JUN-AUG 2021 **Business Research Analyst**   **Pentarch Ventures LLP**
Responsible for conducting in-depth market/company research, data analysis, and validation to aid in a data repository and presenting the results through reports and MIS, to support the market entry decisions.

OCT-DEC 2020 **Event Manager**   **Function Junction**
Organized multiple events/parties successfully for the event management company, witnessing the active participation of 500+ people.

AUG-OCT 2020 **Sales and Marketing**   **Pegasus Lane Private Limited**
Worked as a Sales and Marketing intern for an aspiring advertising agency. Generated 14 leads in 45 working days using salesforce.

AUG-SEP 2020 **Business Development**   **Mandatory Trendz Ltd**
Supported the online training platform to gain new partners-more customers, and branding in an endeavor to develop and grow the brand.

Projects

Voyageon   **Startup Idea**
Successfully created and demonstrated a travel-based startup idea and its business model during my internship with Upkey, in association with IE Business School, Spain.

Library Management System   **C/C++**
Developed a management system that allowed us to add, search, and change records. The full management of entire library could be managed by this program.

Speech Extractor   **Python**
Successfully extracted speech from a video file. The program extracts and saves the speech in an audio file. It was implemented using the Speech Recognition Package.

Achievements/Awards

2018-2022 **ICCR Scholar**   **Awarded**
Actively competed with participants around the world to win a 4-year merit-based scholarship for my bachelor's including fee waiver and living expenses, by the Indian Council for Cultural Relations, India.
