PROFILE

Dedicated Trainee at Prepbytes Elevation Academy, specializing in dynamic front-end and robust back-end technologies within agile frameworks. Former Trainee Analyst at Capgemini with proficiency in Windows troubleshooting, network engineering, and SQL data manipulation. Developing Oracle DBA skills to enhance secure databases and adeptly optimizing business processes through technical solutions.

EXPERIENCE

Trainee
Prepbytes Elevation Academy | August 8, 2022 - Till Present
Roles & Responsibilities

- Actively engaging in a rigorous training program focused on full stack development.
- Exploring various front-end technologies and frameworks to build dynamic user interfaces.
- Gaining hands-on experience with back-end technologies to handle data and server-side logic.
- Collaborating with mentors and peers to solve real-world coding challenges.
- Learning to integrate databases and manage data interactions for web applications.
- Acquiring skills in version control and collaborative coding practices for team projects.
- Embracing agile methodologies to understand the software development lifecycle.
- Participating in code reviews and refining coding standards for improved code quality.
- Developing a deep understanding of web security principles and best practices.
- Progressing towards becoming a proficient full stack developer with a versatile skill set.

Trainee Analyst
Capgemini | February 8, 2022 - May 31, 2022
Roles & Responsibilities

- Leveraging training in Windows operating systems to troubleshoot and optimize user experiences.
- Developing expertise in network engineering to ensure seamless connectivity and data flow.
- Mastering SQL to retrieve, manipulate, and manage data for informed decision-making.
- Acquiring Oracle DBA skills to administer, secure, and maintain efficient database systems.
- Assisting in analyzing business processes and recommending IT solutions for optimization.
- Collaborating with cross-functional teams to gather requirements and implement tech solutions.
- Supporting end-users by addressing technical issues and providing timely resolutions.
- Applying theoretical knowledge to real-world scenarios, enhancing problem-solving skills.
- Contributing to the planning and execution of IT projects with a focus on quality and efficiency.
- Progressing towards becoming a proficient Analyst adept at utilizing tech skills to drive organizational success.

PROJECTS

MICRO- PRO The Computer Professionals

- Completed training on PLC and SCADA

ACHIEVEMENTS & AWARDS

- NPTEL 4 weeks course certification on "Business English Communication".

ACTIVITIES

- Actively worked as student partner on Internshala.
- Participated in workshop on Data Science Using Python organized by NIIT.

I do hereby declare that the particulars of information and facts stated here in above are true, correct and complete to the best of my knowledge and belief.
