Professional Summary

Dynamic educator and content creator with a strong background in leveraging AI to enhance learning experiences and simplify complex concepts. Experienced in designing innovative educational materials, mentoring teams, and creating impactful live and recorded courses. With a proven track record in international educational technology environments, I bring expertise in teaching, content creation, and team management. My passion lies in understanding student psychology to foster engaging learning experiences and contributing to the development of AI-driven solutions for modern education

Skills

- **Teaching and Content Creation**: Expert in creating engaging educational materials and using AI tools for teaching.

- **Communication**: Skilled in English, with experience working in an Australia-based startup and collaborating internationally.

- **Management**: Mentored teachers to create innovative, student-friendly content for various levels of learning.

- **Training**: Delivered live training sessions to teachers, empowering them to integrate AI tools into their teaching strategies.

- **AI Research and Development**: Enhanced AI-driven teaching tools, including the AI-Mentor Dev Bot, for better student interactions.

Experience

Education Director   August 2023 - Current
JuniorIT, New South Wales, Australia

- Promoted to full-time and co-founder roles within one month due to exceptional performance during a contract period.

- JuniorIT.ai is an Australia-based startup revolutionizing education through AI-powered tools and dynamic live classes.

- Led AI-integrated learning initiatives, focusing on coding and development, and designed engaging live sessions.

- Mentored teachers in creating effective, AI-driven content to improve student engagement and understanding.

- Delivered impactful courses on JuniorIT's YouTube channel, including this live class (URL : https://www.youtube.com /live/2CbzTYqZW8A)

- Actively participated in outreach and marketing efforts, collaborating with JuniorIT's management in Sydney, Australia, via Skype and LinkedIn.

Contract Teacher   July 2023 - August 2023
JuniorIT, New South Wales, Australia

- Conducted live coding classes and transitioned the platform from Zoom to YouTube Live to reach a wider audience.

- Presented practical concepts, as seen in this Build with AI live class (URL : https://www.youtube.com/watch?v=dt-tEy1SZ40), showcasing real-world applications of coding.

- Created visually engaging graphics using Canva Premium and addressed student queries during live sessions.

- Focused on empowering students to utilize AI tools for learning and development.

Educator   January 2021 - June 2023

Freelancer, Delhi, India
- Taught foundational coding concepts using block-based applications and Scratch to beginners, making coding accessible and fun.
- Simplified programming logic to help students build strong foundational skills.

Curriculum Designer   August 2021 - December 2021

InfeeAI, Delhi, India
- Collaborated on a Flutter-based virtual teacher (bot) app for delivering educational content.
- Designed comprehensive course content and curriculums for math, coding, and other subjects.
- Created engaging and accessible materials tailored to a diverse student audience.
